Healthcare Organizations Must Adapt

Healthcare reform continues to drive a number of changes in the payer market requiring frequent plan updates. This increases the costs to maintain plans which increases prices for consumers. Payers need to deliver customer centric health insurance solutions across the entire customer lifecycle, while ensuring ACA compliance and profitability.

The APTTUS Solution

APTTUS Quote-to-Premium, built and delivered on the APTTUS Intelligent Cloud, connects every critical business process, from broker inquiry, to assessment, to quote proposal generation, to premium billing to policy renewal. It provides an innovative cloud platform that enables payers to rapidly adapt to ACA requirements, create winning proposals and quotes, transform customer and provider engagement and optimize core operations.
